NUMBER 22

## Citizens Meeting Next Sunday.

The second of the series of the citizens meetings will be held at the Court-house auditorium on next Sunday afternoon at 3 o'clock.

The theme for the meeting will be "The Good Citizen," and some of the characteristics. Mr. C. S. Harris will speak of the citizens business and civic obligations; while the Rev. B. M. Currie will speak of his relations to the church and educational institutions.

Others will make short addresses on various phases of the topic for the afternoon. There will be good music by Columbia's best singers and the hour will be crowded full of the best things for the community's betterment. Every lover of good moral and social order, of home and our Christian institutions should be present.

## She Was a Native of Adair County.

Readers of the Courier-Journal will remember noting in the issue of March the 25th an account of a double tragedy in Louisville—a woman stabbed to death by Andrew Beilin, followed by the slayer cutting his own throat, dying in a few minutes. The woman's maiden name was Hattie Ellen Bryant, a daughter of Peter Hargrett, and she was born and reared in Adair county, a few miles from Columbia. Her parents now live in Campbellsville. She had been three times married and was a grass widow when murdered. She and her murderer boarded in the same house in Louisville, the man being desperately in love with the woman, but his love was not reciprocated, and he was very jealous of attentions paid her by another man. He told his victim a few days before the tragedy that he intended to kill her, but would not say just when.

## Notice.

The stock law in Cane Valley precinct is in force, and complaint has been made to me about stock running at large in said district. I take this means of notifying the people in said district that I expect to enforce the law as far as I am required by law when complaint is made to me.

## Will Clean Up.

The members of Union Presbyterian church, assisted by friends in the vicinity of the church, are to meet at the church on next Saturday, April 9, and improve the appearance of both the grounds and church building. The entire day will be devoted to beautifying the property and making the church a more attractive place for worship. Old members and former friends are all invited to be present. Come prepared to work.

Attend the Court-house meeting on next Sunday afternoon, it will be under the direction of the pastors of the city, aided by many of the best workers for good social order in the community. The sole purpose is to keep ever before the community those high Christian ideals that produce the very best citizenship. To do this successfully is to render the fight against encroaching evils comparative easy.

## A Bit of Old History.

My daughter, Mrs. Hattie Campbell Rosser, of Cleveland, Miss., sends me this item that may be of interest to your readers, under date of March 25th. "One of the finest women in Mississippi, died last evening, the widow of Judge J. B. Christian and tonight paper states that her name was Mary Elizabeth Todd, the daughter of Samuel Todd and was born in Adair county, Ky., near Columbia, in September, 1811."

D. S. Campbell, Greensburg, Ky.

The Samuel Todd mentioned in this article, was a physician and was an uncle of Mr. A. G. Todd, of this place. When quite a young man he left Adair county and located in Mississippi where he practiced his profession and where he married. A few years after his marriage his health failed and he and his wife and children came to this county, thinking that this climate would be beneficial to Dr. Todd's health, but he gradually grew weaker, and died on the farm, near Columbia, where the Murray Bros now live. After his death his wife and children returned to Mississippi, and some time after this, his daughter, Mary Elizabeth, married J. B. Christian, who was a lawyer, and who afterwards became a Circuit Judge.

## Death of Mrs. Arlie Campbell.

Monday night of last week, after an illness of a few days, the subject of this notice passed beyond the veil, being a victim of pneumonia.

She was the beloved wife of Mr. J. L. Campbell and a daughter of Mr. and Mrs. J. C. Pelley, of Pellyton, where she resided. Besides the husband, Mrs. Campbell is survived by three children. The deceased was about 20 years old and had been a devoted member of the Church since before she was grown. She was a lady who had many friends, one who will not only be missed by the immediate family, but by every body in the neighborhood where she resided.

Last Friday afternoon a wagon and team, the owner being Mr. Wm. H. Grant, were standing on the square near Mr. Sam Lewis' place of business. The team got frightened and ran at a desperate pace. There were a number of vehicles on the square, and the scene was frightful. Rev. J. R. Crawford, who was passing through the square in a buggy, barely missed being run into. The team finally stopped the wagon against a telephone pole at the post-office. People who drive upon the square and stop, should take the trouble to unhook their horses.

## An Attempted Assault.

Thomas Edwards, it is charged, attempted to assault one day last week, a twelve year old daughter of Mr. Thomas Rogers, who lives in the Pickett Chapel neighborhood. The little girl, in company with her brother, two years her junior, were in a field when Edwards came up. He persuaded the boy to go to the house, claiming that he wanted some kind of an article, and when the little fellow started—the girl not liking Edward's looks—also started. Edwards grabbed her and she jerked loose and climbed over a fence, Edwards following. The little boy seeing his sister's peril, drew his knife and made at the assailant. Edwards released his grip on the girl and turned his attention to the boy, and while Edwards and the little fellow were in a tussle the girl escaped. The scoundrel then left the scene, the children notifying the neighborhood. A posse was organized who started on a hunt for Edwards, but up to this writing he has not been apprehended. It is believed that he is hiding either in Metcalfe or Green county.

Often we have complaints made by subscribers that they do not get their paper and in many instances that it is not received until Saturday in this county. The complaints usually are from those in the country who have boxes and depend on the mail man to deliver their mail as provided by the postal laws. The News is mailed to every office on Tuesday evening and the fault is not in this office. We are not charging willful disobedience of the law but some seem indifferent about the matter, judging from complaints filed here. We do not want to complain but it is essential to the welfare of The News that each subscriber get it in due time, so we mean to protect our business and give the best service we can to every one, and therefore, will file complaint with the Post-Master General against any office that withholds the paper from any subscriber we get proof of same.

Mr. Alvin A. Strange and wife are now residents of Louisville, Mr. Strange has established a publication known as "The News Bulletin," and it is issued twice daily. The copy before us gives evidence of enterprise and skill, and we wish Mr. Strange success in his new venture. It certainly will prove a great convenience to the people of Louisville, and we see no reason why it should not be a profitable enterprise.

### What Whiskey Will Do.

#### Written for the News:

Every user, to any extent, of intoxicating liquors as a beverage, and every user of noxious drugs, comes to experience the dangerous effect of the use, yet, this experience, nor advice, nor warning apparently is not heeded; every drinker, and every user of drugs exposes his health and life knowingly to an extent, and it is only when death threatens, that some men seek proper medical treatment. Every drinker is suicide on the installment plan, and some drink the last installment.

Every drunkard was once a moderate drinker, and as gravitation is the process of gravity, so is drunkenness a process of intoxicating beverages—these processes differing in that, gravitation sustains, but drunkenness destroys—life. Every drunkard of today was once a sober man and moderate drinking was the beginning of his drunkenness, and drunkenness is a synonym for death—see the graveyards.

Some systems seem to endure the strain, stress and stimulation that intoxicants produce or cause, but this endurance has a limit and this limit is terrific and cyclonic when it comes—it is desolation, disease and death; and while some systems seem to endure and withstand and recover, the great majority of systems can't and won't endure alcoholic attacks and this shows the dangerous effect of alcohol on the human system.

The drinker whose system seemingly stand up under intoxicants unharmed, is the drinker who is in the dark amid demonic environment; he is over the volcanic certainties and eruptions of approaching alcoholism, but the drinker whose system revolts quickly, whose stomach refuses, whose nervous system goes down after or during a "spree," such a drinker is indeed fortunate in being so warned and he should then flee from the wrath to come.

Every Stomach keeps its own record of every intoxicating drink and a post-mortem tells the story—the awful story of self destruction; every acclimated mind—poisoned to insensibility—goes down into and through the Valley of the Shadow of Death, and this shadow is the awful warning, but Oh, some never survive the warning, for death comes and supplants the shadow and thus another soul is transported into eternity by the alcoholic route.

Every heart of every drinker reaches an altitude in pulsation, and drops below the normal pulsation as the alcohol dies out, and in either case, the drinker is nearer death's door than he knows and many drinkers pass through this door on to death—another drinker, another drunkard gone beyond recall, and so is man unwise, unthinking into his own death.

No drinker would be a drunkard, every drunkard would be a sober man; there are only two classes of drinkers—one is represented by the drinker who quits before it kills him, and the other by the man who it kills before he quits; No man is less thoughtful than the drinker of the certainty and the likelihood, and the possibilities that attend and that are the natural conse-

quence of intoxicants excessively used as a beverage; no indulgence is more insidious than the use of intoxicants; nothing captivates, to destroy, like the stimulating influence of such beverages; no deception is more hidden from the drinkers senses than the magic of intoxication; no cause of sorrow however cruel or heinous, compares to the satanically born and demonic bred alcoholic microbe; the brood of evils spread and inoculate with poisonous infection irrespective of person, or consequences like unto the viperous death evil—alcohol—taken into the human system as a beverage.

What is that hurtful, hideous, heinous thing, whose Veneer, Viperous, Vamperous sting, diseases, degenerates and destroys life? Whiskey—"booz."

What is that foaming, frothing, fleeting thing, whose cheering, catchy, cooling fling falsely, flatteringly fools the drinker? Beer—"booz."

What is that exhilarating, exciting, enticing thing, whose sparkle, spirituous, spraying tinge, flatters, fleeces and flounders men? Wine—"booz."

Every part of the drinkers anatomy and his mental and moral capabilities are exposed to the dangerous, degrading and degenerating effect of the excessive, or even the moderate use of alcoholic stimulants, and observation and experience teach, and science demonstrates the particular and general health impairing and death causing certainty of alcoholism, and no tongue nor pen could tell the story, but both agree to a verdict and judgment of condemnation against this hydra.

The stimulating effect of intoxicants, and the lulling influence of noxious drugs are deceptive and this deception is the beginning or initial of the danger to the drinker or user who is really unconscious of the extent of alcoholic power or stimulation and over-stimulation, and the user of drugs is deceived by the falsely soothing charm of the drug, and thus the victim is carried into the vortex of mental dejection and physical impairment, the sad climax of which is, death.

The moral sense is the first one to become impaired and deadened, the next is the mental and then the physical organism, and the real better self of the man is insulted, ignored and imprisoned as alcoholism gradually ascends the throne and banishes reason, penetrating, polluting and poisoning the circulatory system, and nerve cells causing dissolution; burning and consuming the red corpuscles until the entire or whole health foundation is destroyed and the mental-superstructure falls under the excruciating and violent work of delirium tremens and in the grasp and grip of this boa-constrictor that coils its power of death around human life by which countless thousands of human beings have been and now are torn from life and loved ones.

In the battle of alcoholism carried on between the delirium and the patients constitution, the distorted vision of the victim, his dethroned faculties, his depleted system, reeking with alcoholic poison, subject him to sights and scenes, sounds and fear that tongue nor pen cannot describe or portray; demons from the red

planes of hell with forked tongues of fire and glaring eye-balls, leap to devour; reptiles creep and hiss and lacerate; shrieks and wailing echoing from the chamber of horrors located within the delirious mentality constitute part of the delirious entertainment, and thus demented, demoralized and destroyed the drinker dies.

This pen picture is but a faint portrayal of the reality of the condition and experience of the drinker whose will power and life are swallowed up in alcoholism—lost to self, to family, to friends and to usefulness, and his character perverted from that of good to bad—good aspirations deflected, bad aspirations created, evil associations courted, home influence ignored, domestic ties violated and contaminated, and on down the open declivity into a bottomless pit of alcoholic death; homes invaded by the feindish enemy, are darkened, disgraced and demolished; a mother's heart, a wife's heart—words can't tell the story of their suffering, but these avail not against the insidious, insinuating, invading vampire, that blights and blasts home and hope.

Tongue, and pen pictures startle listeners, and readers, but Oh, to see and hear the poor alcoholized and demonized subject when in the grasp and grip of drunkenness, is to see and hear the very extreme of human suffering—excruciating torture and torment.

Drunkenness is a tide of death  
That draws within its fold  
So many thousand souls a year  
From ranks both young and old:  
Drunkenness, like a felons blow—  
Cares not for life nor pain,  
For, if at first it don't succeed,  
It will try, try again.  
Drunkenness is a burning pit  
Of molten human lives—  
A pit of human flesh and bones  
As boundless as the skies.

#### Alcatraz Island.

San Francisco, Cal., Mar. 13, '09.  
Editor News:—

As you were kind enough to print the few lines I penned you some time ago; I will try and write you a few more notes of a soldiers life, their habits, etc.

The weather here is certainly fine; it is just like May in Kentucky. But California has its drawbacks, just the same as any other state—and earthquakes are one of them. Now I don't want to knock for a knock is always a boast. Now I don't see it in the Frisco papers but take it from me, for I certainly know. Last Thursday eve the 10th, inst., between 10:30 and 11 p. m., there was felt here 3 distinct shocks about 3 minutes apart, and of about 4 to 7 seconds duration. So you see California has its drawbacks also, but I'm not knocking. Take it all in all this is a fine state to soldiers on account of the climate.

We have been having vegetables here all winter; thanks to California and Uncle Sam. We are having a good many prisoners coming in now, at the rate of about five a day. Our old stockade is very nearly full, but the large new one will be ready in a short time and then it will be better for soldiers as well as prisoners, as they will have more room and the new stockade wall will be extended and more ground inside the enclosure.

The prisoners gave quite a good entertainment Washing-

ton's birthday, and the prison guards were invited to attend. They had quite a good comedian play and also gave a couple of boxing bouts. There is some good talent among the prisoners. The night of the 10th I, went to Ft. McDowell to a boxing contest. We pull off something every week among ourselves.

Thursday, the 17th, we are giving a dance and supper here at Alcatraz, expect quite a few people here from the different cities in the near vicinity, as we are surrounded by cities. It is no trouble to get as many people here as we can take care of, and I assure you it is a treat to them to visit our Island and partake of the hospitality of the soldier boys. We have quite a good band here, also two pianos, and several of the boys play the violin. So we don't have to look outside for our music.

I am sending you an invitation to our little blow out, wish you could be here, but I don't much look for you.

Time passes fast here for guard duty is getting a little bit harder as we have quite a few sick in the hospital, are only getting four nights in at present, and Mr. Carter, my chum says that's pretty tough, but we all think that, so I guess that is about right. I am on guard tomorrow (Monday) come off Tuesday, do my old guard Wednesday and go on again Friday. That's the way we count the guards. We call it four nights, counting Tuesday the first night in. There is a good deal of excitement here among the soldiers about the big fight that is to be pulled off here July 4th. I expect to see that boiler maker whip that blackman until he is yellow.

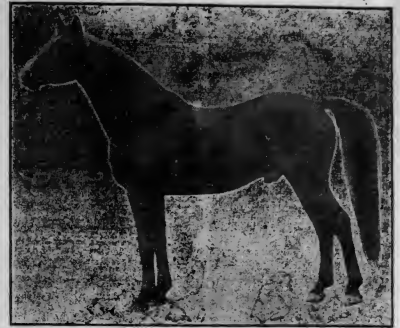

I saw the gamester man whipped that ever put the gloves on, when Walgast whipped battling Nelson, Washington's birthday. All soldiers are lovers of good sports and like to see good men box, but I never want to see another man get a beating like Nelson got. We were going to pull off a boxing bout here between the navy boxers and the army sports, but owing to the fleet leaving for target practice at Magdalen bay, it is postponed until further notice.

We are losing one of our best officers, Lieut Delaplain, he is going to join his regiment, the 11th Infantry, and Lieut Russell of the 8th Infantry takes his place here at Alcatraz. This is going to be quite a city itself in the near future, as I understand Uncle Sam is going to install a factory here for convicts to make Government clothes for soldiers.

I see from the papers that there are quite a lot of buildings going up in and around Adair. I just heard from father and he tells me that he is going to build a house and barn. I don't suppose I will know the place when I get home, but I am glad that old Kentucky is so prosperous. Hope the street cars are running by our door when I get home Sept. 30th, 1911. My friend Mr. Carter, has 9 months to do before he gets his discharge and he says he is going to beat me to Kentucky. I tell him that there is always room for one more in Kentucky, especially if he is a native born, for you can't keep them away.

Well, as it is getting about time for the trumpeter to blow

## FOR THE LANDS SAKE USE BOWKER FERTILIZER?

I have been selling the Old Bowker Brands for the past six years and my trade has grown from year to year, and this is evidence to me that the Bowker Fertilizer is the best made for this section. I have sold these goods to leading farmers all over the County, who have thoroughly tried and tested them, and will tell you Bowker Fertilizers are the best money can buy. You may buy goods for less money, but remember that cheap Fertilizers are very dear indeed when you come to harvest your crop. Remember that Bowker's Ky. Special and Tobacco Grower have an extra high per centage of Potash.

I will be at my old stand in due time for Spring Trade with a full supply of Bowker goods. Call and see me and get prices. I will also sell Homestead.

SOLOMON MCKINLEY, Columbia, Ky.

tops I will bring my letter to a close, as I will be up all night tomorrow night on guard. Hoping that the friends who read this are enjoying the best of health and prosperity. I am,

## THE ALAIR COUNTY NEWS.

Published Every Wednesday.

BY THE

Adair County News Company.  
(INCORPORATED.)

CHAS. S. HARRIS EDITOR.

Democratic newspaper devoted to the interest of the City of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Post-office as second class mail matter.

WED. APR. 6, 1910.

The Railroad proposition seems to have lost out and the pike from Columbia to Greensburg likewise sleeping.

The body of Justice D. J. Brewer, who died in Washington, D. C., last Wednesday night, was taken to his old home, Leavenworth, Kansas, for burial. He was 73 years old and a great lawyer.

One of our exchanges says that in the next State campaign if the Republicans undertake to chide the Democrats about doings of the last Legislature, the latter named party will have a set off by referring the Republicans to the State's great (?) and good Governor.

The Fiscal court ought to make some provisions for bettering the condition of the public roads. This can not be done without money and a good system of using it. Heretofore the lack of a good unwavering plan has been the chief trouble.

The resignation of Prof. J. G. Crabbe as Superintendent of Public Instruction was accepted by Governor Willson last Saturday. The Governor appointed Prof. Ellsworth Regenstien, of Newport to the position, who will serve until January. There will be a State election in November.

A few years ago when Napoleon B. Hays was speaking over the State, making all the trouble he possible could, this office received a peck of letters, written in the interest of certain candidates and mailed at Frankfort, denying all that Hays was saying and urging the Democrats to stand to the organization. The letters were wholly unnecessary, as we never had any time for sore headed Democrats. At that time we stood to the organization and in all future campaigns we will be found in the same boat.

The introduction of Senator McCreary as a Democratic candidate for Governor, by the Mayfield Messenger and indorsed by the Livingston Banner, is on our desk under the blue pencil mark. We note, with pleasure, the reasons set forth in support of our distinguished citizen and readily agree with the editors of the above mentioned publications that he would not only make a formidable candidate, but a most excellent Governor. So far as we are concerned, and so far as the Democracy of this part of the State is interested, any good and well qualified Democrat will fill the bill to a letter. Other able Democrats have been mentioned who would also get the full party vote and fill the position to the good of State and party. The News does not hang its hopes on any particular candidate at this

time, but when the entries have been made will make its choice.

## Toria.

The health of this community is reasonably good except Nick Rowe, who is very low with consumption and not expected to live but a short time.

The beautiful spring weather is giving opportunities to farmers, who are readily grasping them. The plant bed burning is about over and now their minds are directed to the preparation of their corn land, a great effort is being made for both corn and tobacco crop. The farmers seem to be hustlers and of course there is success awaiting them.

The large number of deaths chronicled in this week's issue was sad to contemplate. It should remind us that we are swift passengers from time to eternity. It is indeed alarming to see the negligence on the part of people regarding the salvation of their soul. I believe the professed followers of Christ are responsible for a great many staying away from Christ. Members of the Church wake up to your duty, you are selling the poor widows and old worn out men your corn at \$1 per bushel last year you sold it at 60 cents. ## NOTICE

JORDAN PEACOCK

The best breeder in Kentucky, will make the present season at his home in Gradyville, Ky., at \$15.00 to insure a living colt, sound and right.

JORDAN has sired more colts than any horse in southern Kentucky, and his colts are the ones that bring more money than any others; they are the colts that the farmer gets his own price for; they are the colts that the lovers of fine horses from other States come to this country to buy; they are the ones that have put other stallions out of business in this country. JORDAN is the horse that has stood the test and has proven to be the best. He is the only horse in this country that ever sired a colt which sold for \$700.00 at 2 years old. There have been a number of JORDAN's colts that sold for from \$300 to \$700, and a number of them 3 year old and over sold for from \$500 to \$1,000. Has any other horse's colts in this country sold for half of these prices? If they have, some one will please say something about it through the columns of the News, I want to know where they are? Don't let the other feller make you believe their horse is as good as JORDAN, for you know it is not. Bring your mare to JORDAN and get a colt and a good one.

**HIGHWAY:**—My fine Jack HIGHWAY is 4 years old and is the best Jack I have ever seen in Adair county. He will serve a limited number of mares at \$10.00 to insure a mare with foal.
